Applicants: Amir HERZBERG et al. Appl. No. 09/522,416

(a) providing a user replica that includes objects that are assigned, each, with at least one attribute;

- (b) providing a set of containers associated, each, with attributes from among said set;
- (c) providing a user interface for generating an update in said replica;
- (d) submitting the update stipulated in step c to the replicas of selected users;
- (e) receiving at least one update from at least one user in the community and update said user replica with the so received update; and
- (f) selectively displaying, through a user interface, at least one container; an object from the replica is displayed in said container if a condition is met; the condition is applied to at least the following: at least one of the attributes of the container and at least one of the attribute of the object.

In the Drawings:

Proposed amendments to Figures 1A, 4B, 4C, and 5 are being submitted concurrently herewith, accompanied by a separate letter to the Official Draftsperson. Approval of these proposed drawing amendments is respectfully requested.

Further, substitute formal drawings, including Figures 1A-1B, 4A-4C, 5, and 6, are also being submitted herewith, along with a separate letter to the Official Draftsperson. Approval of these substitute formal drawings is respectfully requested.

Applicants: Amir HERZBERG et al. Appl. No. 09/522,416

Note that Figure 6 has been drawn based on Figure 6 of the drawings as originally filed and is intended to replace Figures 6A-6B, which are, accordingly, cancelled.
